Zadanie projektu

- Implementovať desktopovú aplikáciu na správu médií s videoobsahom.
- Implementácia nad platformou Java.
- GUI by malo splňovať CUA pravidlá.
- Vstup a výstup kartotéky bude zošit v ODF.

Funkčné požiadavky

- Pridanie kategórie média
- Pridanie média do kategórie
- Vyhľadávanie média v kartotéke
- Odstránenie média z kartotéky
- Odstránenie prázdnej kategórie
- Zmena kategórie média

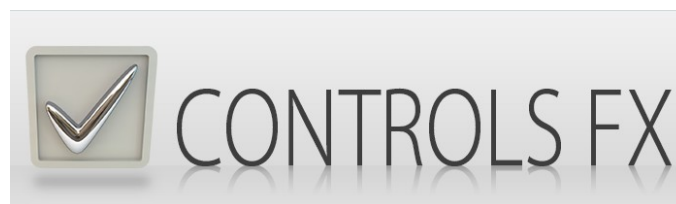

Backend

- 2 Entity
 - Film
 - Kategória
- Loader – [Apache ODFToolkit](#)
- Manažér kartotéky
- Logovanie jednotlivých akcií

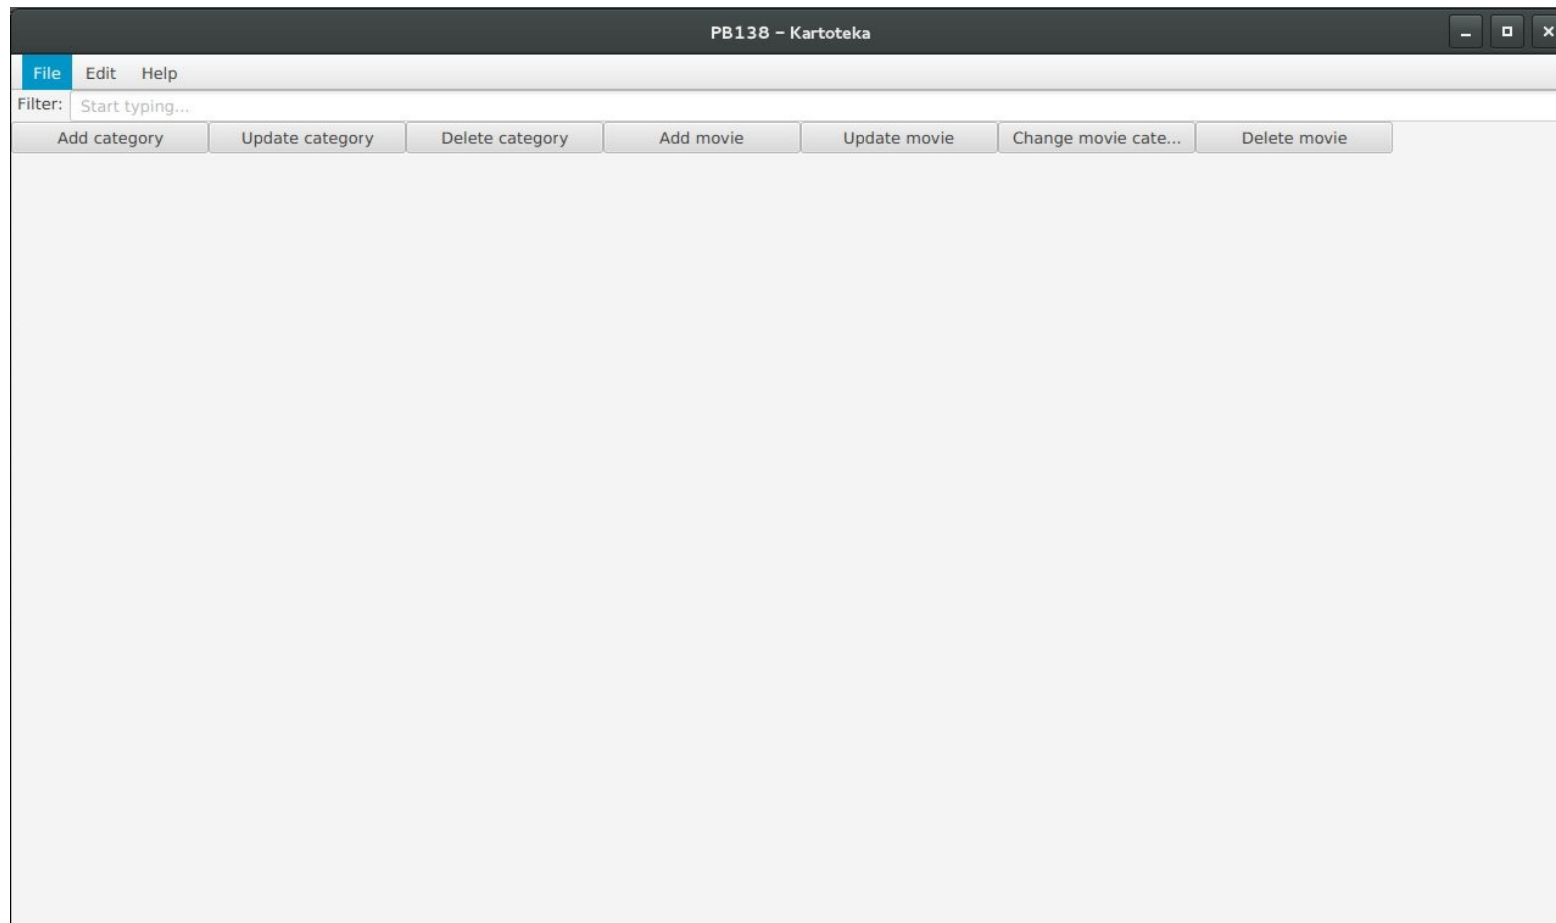

Frontend

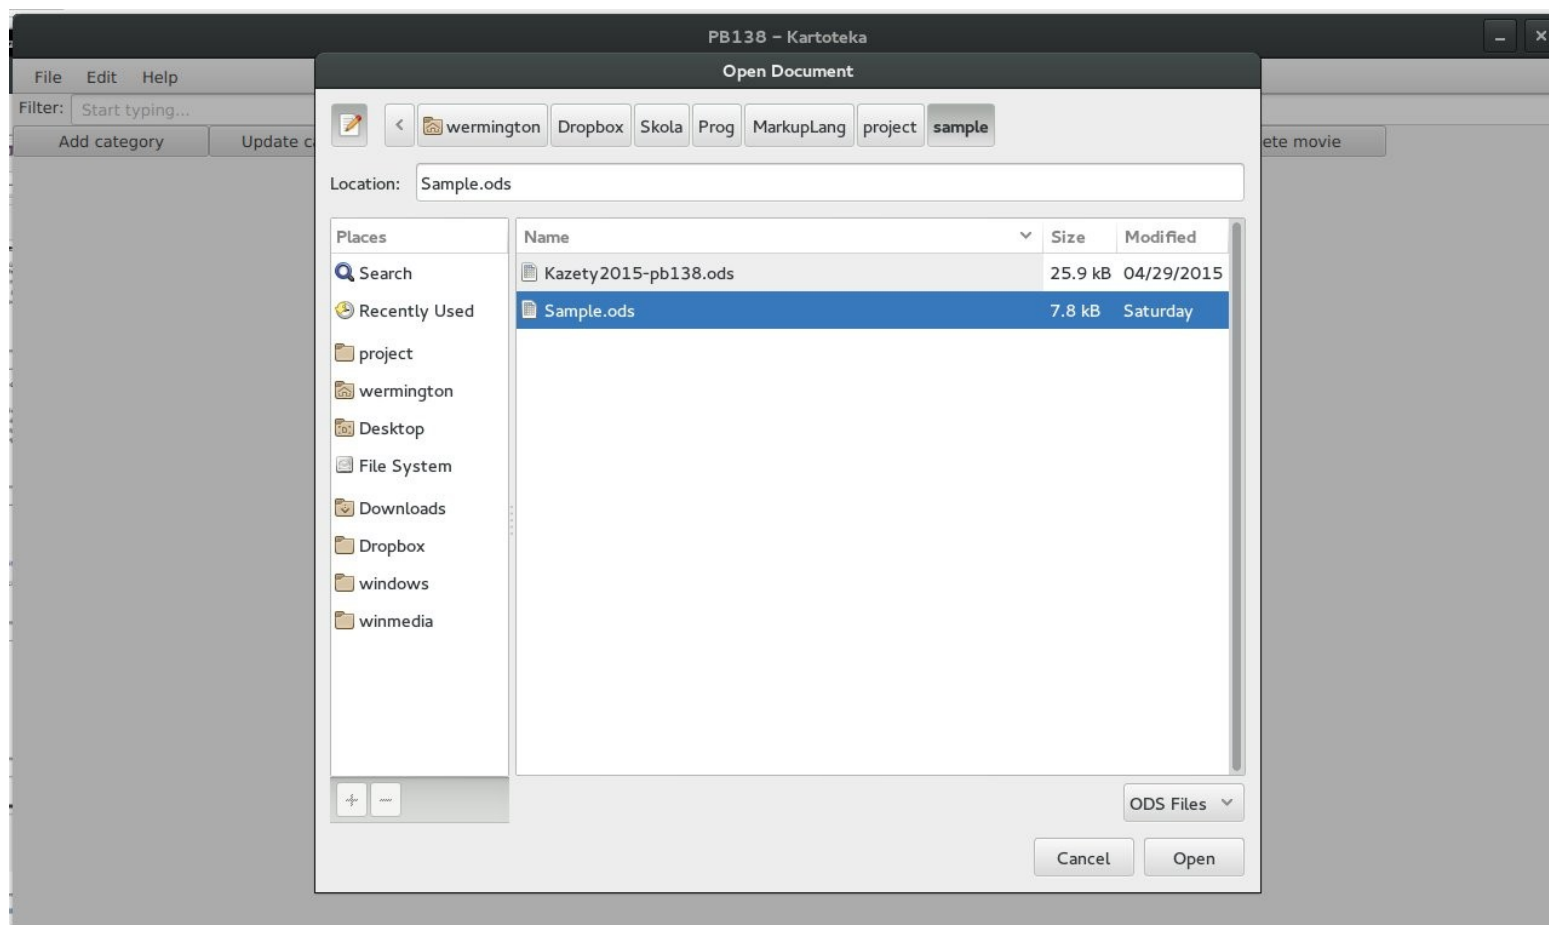

- Java FX
- Internacionalizácia
 - Slovenčina
 - Čeština
 - Angličtina
- Klávesové skratky
- Status bar

The screenshot shows the 'PB138 - Kartoteka' application. A modal dialog box titled 'Add movie' is open in the center. The dialog contains the following fields and buttons:

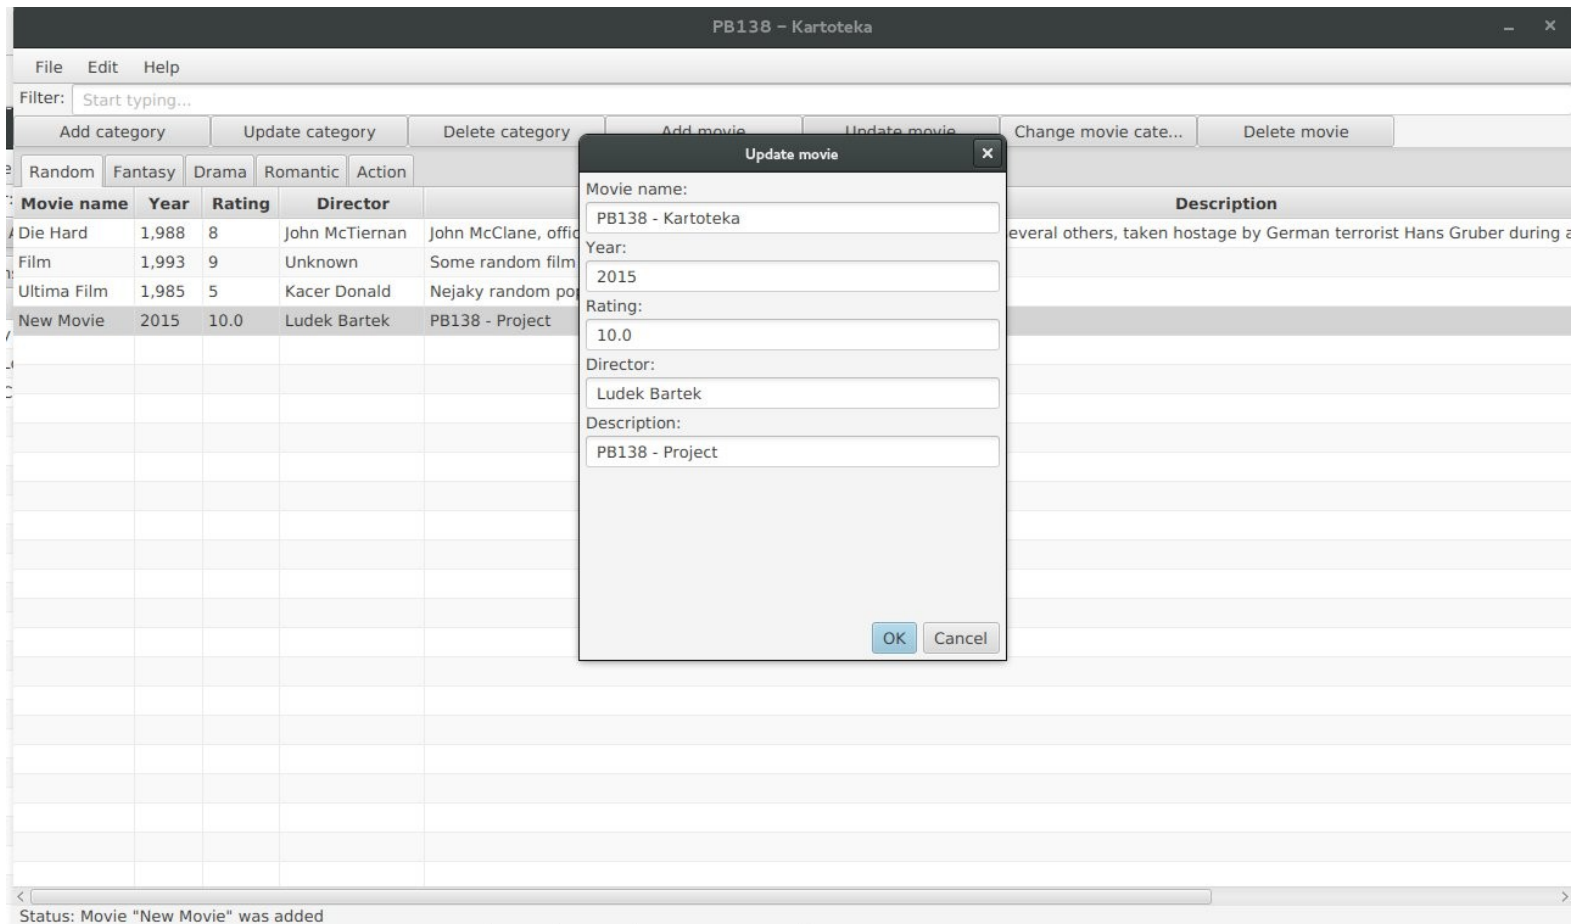

- Movie name:** A text input field with the placeholder 'New Movie'.
- Year:** A text input field with the placeholder 'Enter release date...'.
- Rating:** A text input field with the placeholder 'Enter rating...'.
- Director:** A text input field with the placeholder 'Enter director name...'.
- Description:** A text input field with the placeholder 'Enter movie description...'.
- Buttons:** 'OK' and 'Cancel' buttons at the bottom right.

In the background, a table is visible with the following columns: 'Movie name', 'Year', 'Rating', and 'Director'. The table contains three rows of data:

Movie name	Year	Rating	Director
Die Hard	1,988	8	John McTiernan
Film	1,993	9	Unknown
Ultima Film	1,985	5	Kacer Donald

At the bottom of the application window, a status bar displays the message: 'Status: Following category was updated:Random'.

The screenshot shows a web application interface for managing a movie database. At the top, there is a menu bar with 'File', 'Edit', and 'Help'. Below it is a search bar labeled 'Filter:' with the placeholder text 'Start typing...'. A row of buttons follows: 'Add category', 'Update category', 'Delete category', 'Add movie', 'Update movie', 'Change movie cate...', and 'Delete movie'. Below these buttons is a row of category buttons: 'Random', 'Fantasy', 'Drama', and 'Action'. The main content area is a table with the following columns: 'Movie name', 'Year', 'Rating', 'Director', and 'Description'. The table contains two rows of data: 'Requiem for a Dream' (Year: 2,000, Rating: 8, Director: Darren Aronofsky, Description: The drug-induced utopias of four Coney Island people are shattered when their addictions become stronger.) and 'Javatar' (Year: 2,010, Rating: 10, Director: Lenny Linux, Description: Java rulez.). A 'Confirmation' dialog box is open in the center of the screen. The dialog has a title bar with 'Confirmation' and a close button. The main text in the dialog says 'Delete movie' followed by a question mark icon. Below this, it asks 'Are you sure you want to delete movie "Requiem ...'. At the bottom of the dialog are two buttons: 'Cancel' and 'OK'. The status bar at the bottom of the browser window shows the message: 'Status: File "/home/werminqton/Dropbox/Skola/Prog/MarkupLang/project/sample/Sample.ods" was successfully opened.'
